<b>Distiller:</b>	Jake Sherry

### All about this bottle

Prepare to embark on an extraordinary flavor journey with the boldest gin of the season. Their Spring Gin is a delightful ode to nature's awakening, a testament to their unrelenting pursuit of exceptional taste. Here's why it's the gin they never knew they needed: A Symphony of Vernal Flavors: To craft the foundation of Spring Gin, they started with their beloved Original Gin and added watercress, tarragon, and grapefruit peel. The vernal flavors oscillate from spicy and herbal to a burst of zesty freshness, creating a harmonious palate dance. But the true star of the show is their wild-foraged ramps, sustainably harvested from their distillery's very own grounds. These heralds of spring infuse the gin with an element of eccentricity and savory deliciousness that is simply unparalleled.

### Extra, extra!
