

Lockhart

Merlot

California

Type – Merlot

Region – Lodi

pH: 3.65 | **TA:** 6.2 | **RS:** 8.27 g/L | **ABV:** 13.5%

About Lockhart

Lodi, which produces more wines than all of Oregon and Washington combined, is part of the larger Central Valley wine region, and more specifically the San Joaquin Valley. It is located just west of San Francisco between Sacramento and Stockton on the edge of the Sacramento-San Joaquin Delta. The grapes sourced for Lockhart are all sustainably farmed using organic and sustainable farming practices. Most of the growers we work with are small family producers that have been in business for more than 50 years. The Ehlers family winery has been in business for more than 80 years and is now onto its 3rd generation in charge. All wines are fermented in stainless steel, with the reds aged in twice used french oak barrels.
